

My name is **Emir Bekrija**, and I am a recent **graduate with a Bachelor of Science in Information Technology** from International Burch University in Sarajevo, Bosnia and Herzegovina. I am writing to express my interest in joining your team and starting my career in Germany.

Through my education and various academic and personal projects, I have developed strong skills in software development, web technologies, embedded systems, and automation. I have built **full-stack web applications**, worked with **PHP (FlightPHP)**, **JavaScript**, **SQL**, and implemented **web scraping systems** using **Python**, **BeautifulSoup**, and **Selenium**. I also delivered a seminar on **Embedded C** and created projects using **C/C++**, **Jetpack Compose for Android**, and even **Solidity** for blockchain-based apps.

In addition to my technical skills, I served as a **Programming 2 Demonstrator**, helping fellow students grasp complex C++ concepts. This experience strengthened my leadership and communication abilities.

Currently, I am living in Sarajevo and actively **learning the German language (currently at A2 level)** with the goal of becoming fluent. I am highly motivated to move to Germany to pursue a stable and rewarding career and to build my future in a supportive and innovative environment. I also have a strong personal connection to Germany, as my **girlfriend lives there**, and we plan to build our life together.

I am a passionate, adaptable, and hardworking person with a strong desire to learn and contribute. I am open to various opportunities, including training programs, internships, or junior-level positions, and I would be grateful for the chance to prove myself.

Thank you for considering my application. I would welcome the opportunity to discuss how I can contribute to your team.

Mit freundlichen Grüßen / Best regards,

Emir Bekrija
